场地与人员安全防护备案文件

备案事项：幼儿科普实践活动场地物理环境与人员陪护机制备案 依据标准：公共场所及学前教育机构安全管理通用规范

备案详情：针对低龄群体的活动场地已完成定制化物理环境改造与安全隐患排查。场地地面已全面实施高标准的防滑防护处理，活动区域内绝对排除任何未加装软包防护的尖锐边角或硬质凸起物。在人员安全干预配置方面，活动全程已严格落实网格化看护制度，确保每位参与活动的幼儿均由一名项目团队成员或专职幼教教师进行一对一全程陪同监控。此项机制旨在建立严密的物理与人员防护屏障，杜绝任何意外伤害风险。

Venue and Personnel Safety Protection Filing Document

Filing Item: Filing for Venue Physical Environment and Personnel Escort Mechanism in Early Childhood Science Popularization Practice Activities Statutory Basis: General Safety Management Specifications for Public Places and Preschool Education Institutions

Filing Details: Customized physical environment modifications and safety hazard inspections have been completed for the activity venue targeting young demographic groups. High-standard anti-slip treatments have been comprehensively implemented on the venue floors. Any sharp corners or hard protrusions without soft protective coverings are strictly eliminated within the activity area.Regarding the allocation of personnel safety interventions, a grid-based care taking system has been strictly enforced throughout the entire activity,ensuring that each participating young child is accompanied and monitored one-on-one by a project team member or a full-time preschool teacher. This mechanism aims to establish a rigorous physical and personnel protective barrier to eliminate any risk of accidental injury.
