I. Basic Information of the Activity

- Name of Activity: Guardian of Silver Hair - Basic Protection Standards Training
- Theme of Activity: Standardized Procedures, Warm-hearted Guardianship
- Type of Activity: ☑ Public Welfare Service ☑ Education and Science Popularization ☐ Cultural Promotion ☐ Community Service ☐ Others:
- Host unit: JLU-SPH 团队

II. Objective of the Activity

1. Core Objective: To provide nursing assistants in elderly care institutions with training on basic biosafety protection standards, with a focus on standardization and compliance in daily procedures such as hand disinfection, ventilation, and cleaning records. The goal is to enhance their sense of professional responsibility. Through training and the signing of commitment letters, the activity emphasizes that nursing assistants are the first line of defense for the health of elderly residents, thus promoting a safe and caring environment for elderly care.

2. Specific Objectives:

○ Knowledge/Cognitive Level: Enable nursing assistants to understand the standards and importance of the four core protection measures in daily care (hand disinfection, ventilation, cleaning, and documentation).

○ Behavioral/Skill Level: Improve the consciousness of nursing assistants to follow standardized procedures in their daily work, ensuring the implementation of key protective measures.

○ Emotional/Attitudinal Level: Enhance the professional honor and sense of responsibility among nursing assistants, supporting their understanding that standard procedures protect the elderly, themselves, and their work environment.

3. Expected Outcomes:

○ Number of nursing assistants covered: approximately 60 individuals.

○ Completion rate of training participation and commitment letter signing by nursing assistants: 100%.

○ Completion of overall activity process documentation.

III. Target Participants

- Core Participants: Nursing assistants in elderly care institutions
- Characteristics of Participants: Heavy daily workloads; serve as direct guardians of elderly residents' health; need reinforcement of the awareness and habit of standardized procedures; are key to the success of the activity's objectives.

IV. Time and Venue of the Activity

- Date of Activity: April 10, 2026
- Total Duration: Approximately 60 minutes
- Venue Details:

1. Training and Signing Location: Meeting room of the elderly care institution
2. In-home Service Location: The rooms of 1-2 elderly residents.

V. Content and Process of the Activity

【Overview of Activity Process】

Stage	Time	Segment Name	Specific Content	Responsible Personnel	Required Materials/ Key Filming Points
Stage	15 min	Venue Setup and Personnel Assembly	Arrange the meeting room (tables, chairs, projection equipment); invite nursing assistants to gather.	General Supervisor, Logistics Staff	Computer, projector
Main Stage	20 min	**Segment 1: Basic Protection Training for Nursing Assistants**	Professional instructor explains to nursing assistants the four key points of basic protection (hand disinfection, ventilation, cleaning, documentation) based on the provided script.	Instructor	Training PPT
	5 min	**Segment 2: Signing of the Guardian's Commitment Letter**	Organize nursing assistants to sign the "Guardian of Silver Hair - Biosafety Commitment Letter." Explain the core content of the commitment letter.	General Supervisor	Commitment letters, pens for signing, camera
		Segment 3: In-home Companionship and On-site Protection Guidance	Teams consisting of "team member + nursing assistant" enter selected elderly residents' rooms. Team members provide compassionate companionship, while nursing assistants may provide live demonstrations of standard hand disinfection and other procedures.	Teaching Assistant	Postcards, hand disinfectant

【Detailed Description of Each Segment】

- **Segment 1: Basic Protection Training for Nursing Assistants**

- **Core Content:** Follow the script strictly during the explanation. Emphasize the significance of nursing assistants' work, and explain in detail the four key procedures: "standardized hand disinfection," "timely room ventilation," "cleaning and disinfection," and "standardized documentation and observation." The language should be clear and accessible, with practical examples from the daily work of nursing assistants.
- **Key phrases:** "Everyone serves as the first line of defense for the health of the elderly." "Protection is not a one-time task; it consists of everyday small actions. When these small actions are well-performed, safety is ensured."

- **Segment 2: Signing of the Guardian's Commitment Letter**
  - **Core content:** After explaining the significance of the commitment letter, caregivers are organized to sign in order.
  - **Key phrase:** "This commitment letter represents our responsibility to the elderly, our respect for the profession, and our commitment to safety."
- **Note:** The content of the commitment letter should be concise and clearly stated.
- **Segment 3: In-home Companionship and On-site Protection Guidance**
  - **Core content:** The primary responsibility is to accompany and care for the elderly. In this scenario, caregivers may naturally perform certain routine protective measures, such as using hand sanitizer and filling out ventilation record cards.
  - **Notes:** Communication with the elderly should be conducted with warmth and respect. Demonstration of procedures should conform to standard protocols.

VI. Personnel Allocation and Division of Labor

- Overall Coordinator (1 person): Responsible for overall coordination, liaison with the nursing home, overseeing processes and timing, and presiding over the signing of the commitment letter.
- Lecturer (1 person): Responsible for delivering training in Session 1; must communicate clearly, be engaging, and capable of motivating caregivers.
- Logistics Support (1–2 persons): Responsible for coordination throughout the program; must work closely with the leaders of each segment.
- Teaching Assistants (2–3 persons): Responsible for home visit services in Session 3, assisting the main lecturer, partnering with caregivers, and fulfilling the elderly companionship duties. Must be patient and possess strong communication skills.

VII. Inventory List

- Promotional and Print Materials:
  - PowerPoint Presentation for Training

- "Guarding Silver Hair: Biosafety Commitment Letter"
- Signing pens
- Equipment:
- Laptop and projector
- Camera/high-definition smartphone (ensure sufficient battery power)
- Logistics:
- Hand sanitizer
- Simplified ventilation/disinfection record card

VIII. Risk Contingency Plans

- Low caregiver engagement: Communicate with the nursing home in advance to ensure caregivers' availability; design training content that is practical and relevant to their work to enhance engagement.
- Disturbing the elderly during home visits: Obtain permission from both the institution and the elderly in advance; control the number of personnel and the duration of visits to minimize disturbance.

IX. Effectiveness Evaluation

- Process Documentation: Photographic materials will serve as the primary basis for evaluation.
- Outcome Statistics: Record the number of caregivers participating in the training and signing the commitment letter.
